Meeting Minutes Sprint 2 Meeting 4

Date: Saturday March 2nd, 2024
Duration: 2 hours
Location: JMSB 3rd floor

Members present:

- Christopher Mezzacappa
- Michael Mezzacappa
- Vinisha Manek
- Philippe Rebeiro
- Ambrose McLaughlin

Meeting Agenda

- Website Layout
- Sidebar
- Planning pages and navigation
- Login Functionality/CRUD operations on users
- Home page

Discussion Points

- Website Layout
> **Summary of discussion:** What sites to use as overall aesthetic inspiration as well as what to include in sidebar and header.
> **Decision made:** Kayak will be heavily used for inspiration.
> **Action items assigned:** Phil will work on the layout using react and CSS.

- Sidebar
> **Summary of discussion:** What contents to include in the sidebar, depending on the access level of the user.
> **Decision made:** The sidebar will contain different content depending on whether or not a user is signed in and whether or not a signed in user is an admin. For a user who isn't signed in, it will only contain the home page and login page, a signed in user can see home, log out, favourites and my reservations, an admin can see all of these along with an admin dashboard.
> **Action items assigned:** Phil will make the sidebar.

- Planning page navigation
> **Summary of discussion:** How many and what pages we'd like on the website.

Decision made: Login page accessible from the sidebar, home page that allows for browsing, create reservation page for reserving cars, my reservations page to view/ modify/ delete reservations, favourites page to see favourited vehicles, admin dashboard to create new cars, modify their info and delete them.

Action items assigned: Michael and Phil will work on the home page, Vini will make the admin dashboard, Chris will create the create reservations page as well as the my reservations page.

- Login functionality/ CRUD operations on users

Summary of discussion: Progress on login and account creation, as well as on modifying user data and deleting accounts.

Decision made: No decisions made.

Action items assigned: Ambrose will continue to implement CRUD operations on users.

- Home Page

Summary of discussion: Home page functionality for logged out and logged in users.

Decision made: Logged out users will be redirected to log in page when attempting to reserve a car, logged in users will be redirected to create reservation page.

Action items assigned: Michael and Phil will work on the home page.

Next Steps

- Progress on Front end development as well as implementing all CRUD operations.
- Create 2 acceptance tests from the previous meeting.
